

QUEEN'S UNIVERSITY BELFAST

SHENZHEN FOUNDATION PROGRAMME INTERNATIONAL STUDY AT A WORLD-CLASS UNIVERSITY

THE FOUNDATION PROGRAMME

The Joint Foundation Programme (JFP), is an intensive, one-year sub-degree level programme delivered wholly at Shenzhen, the only university in the Shenzhen SEZ in China accredited by the State Council as a full-time comprehensive university.

THE RESULT

The JFP leads to an International Certificate in Foundation Studies and an opportunity to progress to degree-level study at Queen's University Belfast, one of the UK's leading research-intensive universities.

ESTABLISHED 1998

The JFP, awarded by Queen's University Belfast, this year celebrates 20 years of students for transition from Shenzhen to degree programmes at Queen's University Belfast.

This year, The JFP, delivered jointly in Northern Ireland and China, celebrates 20 years preparing students for undergraduate studies at Queen's University.

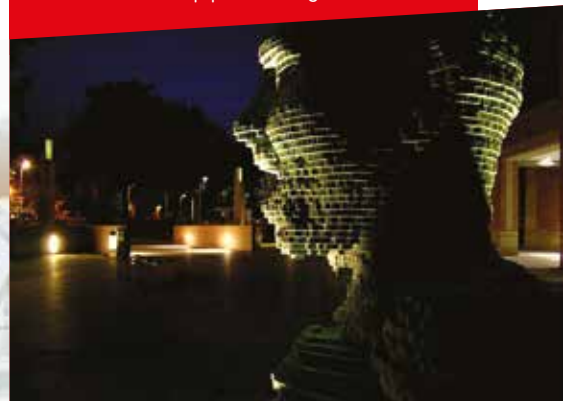

The JFP, one of Queen's top three Partner Institutes for Enrolments, 2015/16.

LANGUAGE-READY

Students will have the opportunity to become proficient in English language and to develop the study skills necessary for an education in the UK.

Students who progress onto Undergraduate degree programmes will automatically receive the International Office undergraduate Scholarship to the value of £2500-£3000.

In addition Queen's University and Shenzhen Joint Programme have a number of merit based prizes available to the value of £5000 for top performing students.

Name: Yaqi Yang
From: Shenzhen University JFP, China
Course: BSc Environmental Management
Faculty: MHLS

"My name is KiKi and I am from Shenzhen in China and I am a 2nd year student on the BSc in Environmental Management course at Queen's University Belfast. I choose my course for a number of reasons, but particular because of my interest in the environmental which is a major issue in China.

During my course I get to take part in fieldtrips to different areas of Northern Ireland to understand about the different environmental issues. I recently went to the Giant's Causeway to examine the different rock types found on the coast.

I really enjoy studying at Queen's and I have found the staff to be very helpful and supportive to me as an international student. Belfast is better than other large UK cities, like London, as it is quieter and allows me time to focus on my studies.

After my BSc course, I hope to study a Master's course and then I plan to return to China to work the area of environmental science.
