

# List of Participants

## Delegate

Adam Zieba  
Adrian Thomas  
Adriana Aristizabal  
Agnieszka Ruppert  
Akiko Koga  
Akila Kamel El Morsi  
Akira Obuchi  
Alberto Marinas  
Alberto Renato de Angelis  
Albin Pintar  
Aleksy Yezerets  
Alena Vondrova  
Alex Goguet  
Alexander Anisimov  
Alexander Elman  
Alexander Sidorov  
Alfons Drochner  
Aline Auroux  
Amandine Cabiac  
Ana Narvaez  
Anders Carlsson  
Anders Hellman  
Anders Holmen, Norway  
Andreas Bentele  
Andrei Khodakov  
Andrew Gordon  
Andrew Holt  
Andy Walker  
Angela Doherty  
Angela Orozco  
Angelica Ion  
Anna Maria Venezia  
Anna Segarra  
Anne Ponchel  
Anne Shanahan  
Anthony Le Valant  
Antoine Daudin  
Antonio Palomares  
Antonio Sepulveda-Escribano  
Armin Brandner  
Arne Bienholz  
Arnim Eyssler  
Asier Aranzabal Maiztegui  
Atsushi Fukuoka  
Atsushi Satsuma  
Avelina Garcia  
Azman Ma'amor  
Bernard Nieuwenhuys  
Berta Matas Guell  
Beteley Tekola Meshesha  
Bilge Saruhan-Brings  
Bohan Zhan  
Bruno Azambre  
Burapat Inceesungvorn  
Can Li  
Carlos Henriques  
Catherine Davies  
Chris Hardacre  
Christina Paun  
Christophe Dujardin  
Claire Noelle Millet  
Claude Descorme

## Affiliation

Institute of Catalysis and Surface Chemistry, Cracow, Poland  
Cardiff University, UK  
University Rovira i Virgili, Spain  
Utrecht University, Netherlands  
Tokyo Institute of Technology, Japan  
  
National Institute of Advanced Industrial Science and Technology, Japan  
University of Cordoba, Spain  
  
National Institute of Chemistry, Slovenia  
Cummins Inc., USA  
J. Heyrovsky Institute of Physical Chemistry, Czech Republic  
Queen's University Belfast  
Moscow State University, Russia  
Rostkhim Ltd., Russia  
Tver Technical University, Russia  
Technische Chemie 1, Darmstadt, Germany  
IRCELYON, France  
IFP, France  
Imperial College, UK  
Chalmers University of Science and Technology, Sweden  
Chalmers University of Science and Technology, Sweden  
Norwegian University of Science and Engineering, Norway  
Süd-Chemie AG  
UCCS, UMR 8181 CNRS, France  
Queen's University Belfast  
  
Johnson Matthey, USA  
Queen's University Belfast  
Queen's University Belfast  
K.U.Leuven, Belgium  
ISMN-CNR, Italy  
Universitat Rovira I Virgii, Tarragona, Spain  
Université d'Artois, France  
Dublin Institute of Technology, Ireland  
LACCO, Université de Poitiers, France  
IFP, France  
Instituto de Technolgia Quimica, Spain  
Universidad de Alicante, Spain  
Technische Universität Darmstadt, Germany  
Technische Universität Darmstadt, Germany  
Empa, Switzerland  
University of the Basque Country, Spain  
Hokkaido University, Japan  
Nagoya University, Japan  
Universidad de Alicante, Spain  
Queen's University Belfast  
Leiden Institute of Chemistry, Netherlands  
University of Twente, Netherlands  
Universitat Rovira I Virgii, Tarragona, Spain  
German Aerospace Centre, Germany  
Queen's University Belfast  
Université de Metz, France  
Queen's University Belfast  
State Key Laboratory of Catalysis, Dalian Inst of Chemical Physics, China  
IST, Portugal  
Cardiff University, UK  
Queen's University Belfast  
Queen's University Belfast  
UCCS-Université de Lille, France  
IFP, France  
IRCELYON, France

Claudia Gomes da Silva	Laboratorio de Catalise e Materiais, Portugal
Clive Butler	MEL, UK
Cristina Lagunas	Queen's University Belfast
Cristina Stere	Queen's University Belfast
Dae-Won Park	Pusan National University, Korea
Dalibor Kaucky	J. Heyrovsky Institute of Physical Chemistry, Czech Republic
Damien Mey	Saint-Gobain CREE, France
David Jackson	University of Glasgow, UK
David Lennon	Glasgow University, UK
David Lundie	Hidden Analytical Ltd., UK
David Maxwell	Queen's University Belfast
David Parker	Chemistry Innovation KTN
David Rooney	Queen's University Belfast
David Sellick	Cardiff University, UK
David Thompson	World Gold Council, UK
Davide Ferri	Swiss Federal Laboratories for Materials Testing and Research, Switzerland
Deana Soogund	Institut Français du Pétrole, France
Debra Harris	MEL, UK
Dong Jin Suh	Korea Institute of Science and Technology, Korea
Edward Jobson	Volvo Bus Corporation, Sweden
Eiichi Kikuchi	Waseda University, Japan
Ekaterina Petrova	Organic Intermediates and Dyes Institute, Moscow
Elaine Neville	UCD, Ireland
Eleanor Crabb	Open University, UK
Eleni Iliopoulou	Laboratory of Environmental Fuels & Hydrocarbons, Thessaloniki, Greece
Eleonora Aneggi	Università di Udine, Italy
Elin Becker	Chalmers University of Science and Technology, Sweden
Elisabete Silva	Instituto Superior Técnico, Portugal
Elodie Quinet	IRCE Lyon, France
Els D'Hondt	Université Catholique de Louvain, Belgium
Enrico Tronconi	Politecnico di Milano, Italy
Enrique Garcia-Bordeje	CSIC, Zaragoza, Spain
Eric Gaigneaux	Université Catholique de Louvain, Belgium
Espen Wangen	NTNU, Norway
Evgenii Kondratenko	Leibniz Institute for Catalysis, Germany
Evgeny Kopnin	Pirelli Labs SpA, Milan, Italy
Farid Aiouche	Queen's University Belfast
Fei Wen	Umicore AG & Co, Germany
Fernando Cardenas-Lizana	Heriot-Watt University, UK
Fidel Cunill	University of Barcelona, Spain
Florin Vasiliu	National Institute for Materials Physics, Bucharest-Magurele, Romania
Francesca Frola	University of Turin, Italy
Francisco Urbano	University of Cordoba, Spain
Frank Alber	Sasol Germany, Germany
Frantisek Kovanda	Institute of Chemical Technology Prague
Franz Lopez-Suarez	Universidad de Alicante, Spain
Friedbert Nees	BASF SE, Germany
Gabriella Di Carlo	Università di Palermo, Italy
Gary Sheldrake	Queen's University Belfast
Gavin Melaugh	Queen's University Belfast
Geogiana Stoica	University Rovira i Virgili, Spain
Gilles Mauviot	IFP, France
Giselle Finqueneisel	Université de Metz, France
Graça Rocha	University of Aveiro, Portugal
Guillermo Mondragon Rodriguez	German Aerospace Centre, Germany
Hanna Hahn	TU Darmstadt Material- und Geowissenschaften Strukturforchung, Germany
Hanna Ingelsten	Chalmers University of Science and Technology, Sweden
Hannes Kannisto	Chalmers University of Science and Technology, Sweden
Hans Gelten	University of Twente, Netherlands
Hans-Christoph Schwarzer	SUD-CHEMIE AG, Munich, Germany
Haresh Manyar	Queen's University Belfast
Hazel Stephenson	MEL, UK
Heather Bradshaw	MEL Chemicals, UK
Helder Gomes	Instituto Politécnico de Bragança, Portugal
Helen Daly	Queen's University Belfast
Helen Moor	Queen's University Belfast
Henrik Christenson	Dinex Emission Technology A/S, Denmark

Hideaki Hamada	National Institute of Advanced Industrial Science and Technology, Japan
Hiroki Miura	Kyoto University, Japan
Hiroimi Yamashita	Osaka University, Japan
Hong He	Research Centre for Eco-Environmental Sciences, China
Ian Silverwood	Glasgow University, UK
Isabel Pariente	Universidad Rey Juan Carlos, Spain
Jacinto De Paiva Sa	Queen's University Belfast
Jacques Barbier	Université de Poitiers, France
Jae-Soon Choi	Oak Ridge National Laboratory, USA
James Aldridge	Cardiff University, UK
James Spivey	Louisiana State University, USA
James Sullivan	UCD, Ireland
Jan Kaspar	University of Trieste, Italy
Jana Mikulova	Institute of Chemical Process Fundamentals AS, Czech Republic
Janos Szanyi	Pacific Northwest National Laboratory, USA
Javier Perez-Ramirez	Universitat Rovira I Virgili, Italy
Javier Ruiz-Martinez	Universidad de Alicante, Spain
Jean-Marc Millet	CNRS, France
Jean-Philippe Dacquin	Université de Lille, France
Jenó Hancsók	University of Pannonia, Hungary
Jerome Mijoin	Université de Poitiers, France
Jillian Thompson	Queen's University Belfast
Jinnan Chen	Beijing Institute of Technology, China
Joaquim Vital	Universidade Nova de Lisboa, Portugal
Joerg Libuda	Friedrich-Alexander-University Erlangen-Nuremberg, Germany
John Pigos	Honda Research Institute, USA
Jonas Sjoblom	Chalmers University of Science and Technology, Sweden
Jonathan Bartley	Cardiff University, UK
José Castanheiro	Universidade de Évora, Portugal
José Hernandez Carucci	Åbo Akademi University, Finland
Jose Marinas	University of Cordoba, Spain
Juergen Gieshoff	Umicore AG & Co. KG, Germany
Juergen Hofinger	Namos GmbH, Germany
Jun Ni	Queen's University Belfast
Kae Shin Wong	University of Bath, UK
Kalle Arve	Åbo Akademi University, Finland
Kamil Jisa	J. Heyrovsky Institute of Physical Chemistry, Czech Republic
Kaori Kunisawa	Seikei University, Japan
Kaoru Takeishi	Shizuoka University Japan
Karen Wilson	University of York, UK
Karin Föttinger	TU Vienna, Austria
Katrin Mackenzie	UFZ - Helmholtz Centre for Environmental Research Leipzig, Germany
Katsuomi Takehira	Hiroshima University, Japan
Kazuhisa Murata	Natl. Inst. Adv. Ind. Sci. Tech, Japan
Kenji Dosaka	Honda R&D Co., Ltd., Japan
Kenji Wada	Kyoto University, Japan
Kerstin Lehnert	Technical Universität Darmstadt, Germany
Kevin Morgan	Queen's University Belfast
Kiyotomi Kaneda	Osaka University, Japan
Koichi Segawa	University of South Carolina, USA
Krár Márton	University of Pannonia, Hungary
Kurt Christensen	Haldor Topsøe A/S, Norway
Kveta Jiratova	Institute of Chemical Process Fundamentals AS, Czech Republic
Lars Pettersson	KTH-Royal Institute of Technology, Sweden
Leanne McLaughlin	Queen's University Belfast
Lee Dingwall	University of York, UK
Leon Lefferts	University of Twente, Netherlands
LI Yinghua	Korea University, Korea
Liam McMillan	Glasgow University, UK
Linda Sherry	UCD, Ireland
Loredana Mantarosie	Queen's University Belfast
Louise Olsson	Chalmers University of Science and Technology, Sweden
Lubow Maier	Karlsruhe University, Germany
Lucie Obalova	Technical University of Ostrava, Czech Republic
Magnus Skoglundh	Chalmers University of Science and Technology, Sweden
Mahboobeh Mohadeszadeh	Ferdowsi University, Mashhad, Iran
Malin Berggrund	Chalmers University of Science and Technology, Sweden

Manfred Nacken	Pall Filtersystems GmbH, Germany
Manuel Romero Saez	University of Basque Country, Spain
Marc Salaun	Université Pierre et Marie Curie - Paris 6, France
Marco Massimo Ferrari	
Marcos Schöneborn	Sasol, Brunsbuttel, Germany
Marcus Bonifer	W. C. Heraeus GmbH, Germany
Marcus Crocoll	Daimler AG, Germany
Marcus Johansson	Volvo Technology, Sweden
Margarete Klimczak	Technische Universität Darmstadt, Germany
Margarita Kantcheva	Bilkent University, Turkey
Maria Filipa Ribeiro	Instituto Superior Técnico, Portugal
Maria Goula	
Maria Riccobene Paolo	Università degli studi di Catania, Italy
Mario Castagnola	Johnson Matthey, USA
Marita Nilsson	KTH-Royal Institute of Technology, Sweden
Mark Crocker	University of Kentucky, USA
Mark Muldoon	Queen's University Belfast
Markus Hutt	SUD-CHEMIE AG, Munich, Germany
Marta Santiago	University Rovira i Virgili, Spain
Martin Dieterle	BASF LLC, Iselin, USA
Martin Symalla	Technische Universität Darmstadt, Germany
Masaaki Haneda	National Institute of Advanced Industrial Science and Technology, Japan
Masahiko Matsukata	Waseda University, Japan
Masakazu Iwamoto	Tokyo Institute of Technology, Japan
Masashi Inoue	Kyoto University, Japan
Masato Machida	Kumamoto University, Japan
Matsubara Hiroyuki	Toyota Motor Corporation, Japan
Matthew Ace	Queen's University Belfast
Meabh Nic An tSaoir	Queen's University Belfast
Megumu Inaba	National Institute of Advanced Industrial Science and Technology, Japan
Meinhard Schwefel	Uhde GmbH, Germany
Michiel Makkee	Technical University Delft, Netherlands
Miguel Gonzalez	ICIQ, Tarragona, Spain
Mihaela Taralunga	Creed- Veolia, Limay, France
Mika Huuhtanen	University of Oulu, Finland
Mikhail Sinev	Semenov Institute of Chemical Physics, Russia
Milos Marek	Institute of Chemical Technology, Prague
Mirosława Abul-Milh	Volvo Technology, Sweden
Mohamad Ousmane	IRCELYON, France
Mohammad Ahmad	Queen's University Belfast
Mohammad Ali Zanjanchi	University of Guilan, Iran
Mohammad Halabi	Eindhoven University of Technology, Netherlands
Mohammad S Yalfani	University Rovira i Virgili, Spain
Mohammed Bettahar	Université Henri Poincaré, France
Moon Hyeon Kim	Daegu University, Korea
Muriel Lepage	Toyota Motor Europa nv, Belgium
Murray German	Canada
N R Shiju	University of Huddersfield, UK
Nagy Gábor	University of Pannonia, Hungary
Nalan Özbay	Gazi University, Turkey
Naoki Takahashi	TOYOTA Central R&D Labs. Inc., Japan
Nathalie Tanchoux	ICGM - University of Montpellier, France
Neil Hamilton	Glasgow University, UK
Nicolas Cadran	IFP, France
Nicolas Van Gyseghem	Total Petrochemicals Research, Belgium
Nicole Hebben	University of Karlsruhe, Germany
Nikolaos Spanos	Patras, Greece
Niloufar Mobarrez	Azad University, Tehran, Iran
Noelia Barrabes	University Rovira i Virgili, Spain
Noelia Cortes Felix	Johnson Matthey, UK
Nolven Guilhame	IRCELYON, France
Norihiko Suzuki	Honda R&D Co.,Ltd., Japan
Nuray Oktar	Gazi University, Turkey
Ok Youn Kim	SK energy, Korea
Olaf Deutschmann	Universität Karlsruhe (TH), Germany
Oliver Kröcher	Paul Scherrer Institute, Switzerland
Olívia Salomé Soares	Universidade do Porto, Portugal

Olivier Marie	Laboratoire Catalyse et Spectrochimie, Caen, France
Olivier Thinon	IRCELYON, France
Oxana Korsak	Empa, Switzerland
Paolo Fornasiero	University of Trieste, Italy
Paraskevi Panagiotopoulou	University of Patras, Greece
Parthasarathi Bera	Instituto de Catálisis y Petroleoquímica, Spain
Patricia Faria	Universidade do Porto, Portugal
Patrick Da Costa	Université Pierre et Marie Curie, France
Paul Davey	Givaudan, UK
Paul Millington	Johnson Matthey, UK
Peijun Hu	Queen's University Belfast
Petar Djinovic	National Institute of Chemistry, Slovenia
Peter Balle	Institut für Technische Chemie und Polymerchemie, Karlsruhe, Germany
Peter Goodrich	Queen's University Belfast
Peter Moles	MEL, UK
Petrea Nicoleta	NBCE Military Research Center, Romania
Petrica Dulgheru	UCD, Ireland
Philip Earis	Royal Society of Chemistry, UK
Pierre Gallezot	IRCELYON, France
Pieter Smeets	K.U.Leuven, Belgium
Pyung Soon Kim	POSTECH, Korea
Qihua Yang	Chinese Academy of Sciences, China
Ratcha Pilasombat	Queen's University Belfast
Rebecca O'Neill	Queen's University Belfast
Renate Uitz	Shell Global Solutions, Germany
Rile Ge	Queen's University Belfast
Rob Brown	University of Huddersfield, UK
Robbie Burch	Queen's University Belfast
Robert Hayes	University of Alberta, Canada
Roberto Matarrese	Polytechnico di Milano, Italy
Rolf Siefert	Uhde GmbH, Germany
Romain Beauchet	Université de Poitiers, France
Romain Delaigle	Université Catholique de Louvain, Belgium
Ronald Miranda	University Rovira i Virgili, Spain
Rosa Bonelli	University of Bologna, Italy
Roy Douglas	Queen's University Belfast
Ruben Lopez-Fonseca	Universidad del Pais Vasco, Spain
Ruud Grisel	EC N, Netherlands
Ryosuke Yamane	Kanazai University, Japan
Saburo Hosokawa	Kyoto University, Japan
Saleh Saqer	University of Patras, Greece
Salvatore Scire	University of Catania, Italy
Sandra Capela	IBB/CEBQ, Instituto Superior Técnico, Lisboa, Portugal
Sandra Contreras	University Rovira i Virgili, Spain
Santiago Gomez-Quero	Heriot-Watt University, UK
Sarah Burnham	UCD, Ireland
Sarah Dixon	RSC, UK
Sarayute Chansai	Queen's University Belfast
Satu Ojala	University of Oulu, Finland
Satu Pitkääho	University of Oulu, Finland
Sauro Passeri	University of Bologna, Italy
Serafin Bernal	Universidad de Cádiz, Spain
Serigy Shekhtman	Queen's University Belfast
Shifei Ye	University of Bath, UK
Shigeo Satokawa	Seikei University, Japan
Shogo Shimazu	Chiba University, Japan
Shu-Hua Chien	Academia Sinica, Taiwan
Shuichi Naito	Kanagawa University, Japan
Siglinda Perathoner	University of Messina, Italy
Silu Wang	Queen's University Belfast
Silvia Suárez	CIEMAT, Spain
Simon Kondrat	Cardiff University, UK
Simona Bennici	IRCELYON, France
Slawomir Ostrowski	Industrial Chemistry Research Institute, Warsaw, Poland
Snigdha Sushil	Energy and Resources Institute (TERI), India
Somoghi Vasile	NBCE Research Center, Ministry of Defence, Romania
Sonia Parres Esclapez	Universidad de Alicante, Spain

Sreedevi Upadhyayula	IIT Delhi, India
Stanislaw Kolaczowski	University of Bath, UK
Stefania Albonetti	University of Bologna, Italy
Stefanie Tamm	Chalmers University of Science and Technology, Sweden
Steffen Tischer	University of Karlsruhe, Germany
Steffen Waglöhner	Institut für Technische Chemie und Polymerchemie, Karlsruhe, Germany
Stéphane Charlery Marie-Rose	Université de Poitiers, France
Steven Fiddy	Hidden Analytical Ltd., UK
Stuart James	Queen's University Belfast
Sukjin Choung	Kyunghee University, Korea
Sunantha Hengrasmee	Khon Kaen University, Thailand
Sung Won Ham	Kyungil University, Korea
Susan Kennedy	Queen's University Belfast
Susanne Philipp	Umicore AG & Co. KG, Germany
Sven Jaras	KTH, Chemical Technology, Sweden
Sven Kureti	University of Karlsruhe, Germany
Tadao Nakatsuji	Okayama University, Japan
Takayoshi Hara	Chiba University, Japan
Takeshi Mori	Honda R&D Co.,Ltd. Automobile R&D Center, Japan
Tanja Kolli	University of Oulu, Finland
Tatiana Fedorova	Organic Intermediates and Dyes Institute, Moscow
Tesuya Unno	Tanaka Kikinzoku Kogyo K.K., Japan
Tetsuya Nanba	National Institute of Advanced Industrial Science and Technology, Japan
Thomas Belin	Université de Poitiers, France
Thomas Classen	Robert Bosch GmbH, Germany
Thomas Quandt	Evonik Degussa GmbH, Germany
Todd Toops	ORNL, USA
Tomoo Mizugaki	Osaka University, Japan
Tony Byrne	University of Ulster, Jordanstown, Northern Ireland
Toshimitsu Suzuki	Kansai University, Japan
Tunde Salawu	Waycodeg Foundation, Lagos, Nigeria
Ulla Roeder	University of Bayreuth, Germany
Umar Gaya	Universiti Putra, Malaysia
Unai Elizundia Eriz	University Basque Country, Spain
Uraivan Kampolpoph	Queen's University Belfast
Valentina De Grandi	Università degli Studi di Milano, Italy
Valerie Caps	IRCELYON, France
Valerie Houel	Johnson Matthey, UK
Valerie Tschamber	Université de Haute Alsace, France
Vasile Parvulescu	University of Bucharest, Romania
Vera Silva Castro	FEUP, Portugal
Vic Parr	SAI, Manchester, England
Vicenzo Palma	University of Salerno, Italy
Victoria Berberian	Queen's University Belfast
Viorica Parvulescu	Institute of Physical Chemistry, Romanian Academy, Romania
Vladimiro Dal Santo	ISTM-CNR, Italy
Volker Hessel	Eindhoven University of Technology, Netherlands/ IMM Mainz
Wan Mohd Hafizuddin Wan Yussof	Newcastle University, UK
Willi Boll	Universität Karlsruhe (TH), Germany
William Epling	University of Waterloo, Canada
Won-Jong Hong	Kyoto University, Japan
Wulf Hauptmann	Technische Chemie 1, Darmstadt, Germany
Xanthias Karatzas	KTH-Royal Institute of Technology, Sweden
Xirong Huang	Shandong University, China
Xiu-Feng Xu	Yantai University, China
Yasushi Sekine	Waseda University, Japan
Yasuyuki Takamitsu	TOSOH corporation, Japan
Ye Qing	Beijing University of Technology, China
Yeow Hong Yap	University of Bath, UK
Youngjin Kim	POSTECH, Korea
Youssef Saih	Queen's University Belfast
Yuichi Ichihashi	Kobe University, Japan
Zdenek Sobalik	J. Heyrovsky Institute of Physical Chemistry, ASCR, Czech Republic
Zongxuan Jiang	Chinese Academy of Sciences, China
