

**Be inspired by academic medicine.
Face the challenges with renewed confidence.**

Developing a career in academic medicine
Monday 22 March – Ulster Museum, Belfast

Discuss your career with Academy Fellows and other senior academics at this one day event. Build an effective network of contacts. Come away better equipped and motivated to pursue the career you want.

I came to the meeting not entirely sure what to expect, feeling a bit unsupported, and therefore unsure what career choices I should be making. I left feeling inspired and determined to keep pursuing my goals!

Clinical Training Fellow after previous workshop

Sessions will address:

- **Training opportunities** in Northern Ireland
- **Striking a balance** between clinic, research and life
- **How to find a mentor**
- **Successful funding applications**, interviews and collaborations

Inspirational speakers will include:

- **Professor Ros Smyth FMedSci**, University of Liverpool
- **Professor Patrick Johnston**, Queens University, Belfast
- **Dr Bernie Hannigan**, HSC Research & Development Office (NI)
- **Dr John Williams**, Wellcome Trust

A workshop for **all clinical academic trainees**, from MBPhD students through to Clinician Scientist Fellows, as well as **anyone considering an academic career**

1030-1800, Monday 22 March 2010
