

# Global Research Impact

The Institute for Global Food Security (IGFS) was established to address the challenges facing the future of the world's food systems. Research is grouped around the *Three Grand Challenges* with more than 70 principal investigators (PIs) working across multiple projects at any given time.

From 2014 - 2018 IGFS researchers have:

published

>1600

journal publications

received

>15,800

citations by fellow researchers

across

163

countries

The outputs have recorded a Field-Weighted Citation Impact of:

1.78

IGFS

1.00

World Average

2.00

Russell Group Average

Our strong collaborative links are bolstered by the high levels of international co-authorship:

71%

of outputs were published in the top quartile of journals (as ranked by SNIP)

62%

of all IGFS outputs included international co-author compared to:

680

institutions co-authored with outside the UK.

21%

included in the top 20% of most cited papers in the world

55%

is the international co-author Russell Group Average

67

different countries with co-authored outputs
