

Donna Hyland

Training and Development Manager - The Graduate School

Supporting Statement

It has been my privilege to work with colleagues across many support teams throughout my 30 year career, 10 of which have been at Queen's. I am highly motivated and committed to delivering high quality and innovative support services through listening, collaboration and reflection. I have broad experience in strategic, operational and change leadership, aligned with strong communication, financial and resource management skills. I would bring trust and integrity to the role which I believe are key values needed when representing colleagues.

As a member of Senate I will endeavour to give support staff a strong and clear voice.
