Racial Equity at Queen's: Staff Racial Awareness and Allyship Training Webinar

To contribute and enhance the racial equity in Queen's, iRise, in partnership with Diversity & Inclusion, is offering a webinar for all staff interested in supporting antiracism work. This webinar focuses on:

- Learning the language and developing literacy to support racial awareness
- Understanding personal, relational and systemic racism
- Understanding Whiteness and White privilege
- Unpacking Allyship

Through engaging in the workshop, it is hoped that participants will develop literacy in implicit bias and racial awareness; better understand what Active Allyship means; and develop confidence individually and as part of a team to have difficult conversations about race and racism at Queen's and beyond.

Facilitator: Dr Muna Abdi, Founder and Director of MA Education Consultancy. [More information can be found here.](#)
