## LIBRARY ASSOCIATE MEMBERSHIP

**Discount to students for the year in which they graduate. Please note the reduced rate applies only if membership is taken up within 6 months of graduation date**

We would like to congratulate all graduates on their recent success and wish them well in their future careers.

People are increasingly finding that access to information is essential in their careers particularly with the current emphasis on continuing professional development. Queen's University Library is offering membership at the reduced rate of £30 to all Queen's students if they join within 6 months of their graduation date. Membership allows access to any branch of The Library at Queen's.

Members may borrow up to ten books at a time for four weeks from the unrestricted collections of any branch of the University Library. All books are subject to recall if requested by another reader. Associate members also have access to services such as inter-library loan, for an additional charge. Please note that there is also a professional associate category of membership which is open to businesses for use by their employees.

.....  
**\*\* NB: Membership of the library does not include off-campus access to electronic resources. There is limited on-campus access to electronic resources via the library catalogue. This access is defined by the licences negotiated with the providers.**

### New Graduate Application for Personal Associate Membership

(Mr/ Mrs/Miss/Ms/Dr) First name:		Surname:	
Date of Graduation:
