

Work Experience and Placement Fair 2021

TERMS AND CONDITIONS

This event is for organisations offering work experience opportunities including internships, voluntary work, year-long and short-term placements, summer work as well as work and study abroad opportunities in 2021. The Fair will be attended by students from across the University, including those Schools that have hosted smaller, course specific, fairs in previous years.

Student experience is a primary focus for the University, and for this reason; Recruitment Agencies and other third-party recruiters are not permitted at the Fair, unless there is a long-standing relationship with a specific University School, fulfilling direct sectoral requirements.

Capacity is limited and booking will close once maximum capacity is reached, therefore we advise early booking. We are prioritising organisations that are actively recruiting and reserve the right to allocate places based on your level of recruitment.

Please note organisations should complete the MyFuture registration form carefully and provide all required information. Incomplete forms will delay the booking process, with priority given to receipt of fully completed forms when allocating stands.

We reserve the right to reject or amend registration forms that are deemed not to meet our service policy.

Please review our [Policy for the Promotion of Employers and their Opportunities](#).

Space is limited and organisations will be charged at full rate if cancellation occurs within four weeks of the event.
