Transition Skills for University

Welcome to Transition Skills for University!

Transition Skills for University has been created by the Learning Development Service with input from colleagues in the Student Wellbeing Service, Disability Services, the Library, University Schools, and students.

It comprises six units of interactive academic skills resources and is intended to support your learning as you adjust to higher education study and transition through University. These resources can form part of your own independent study or be used for teaching purposes in a classroom setting.

In the units below, you will discover video and podcast interviews with current staff and students of Queen's, instructional videos, and downloadable resources. In each unit, you will be asked to pause

Resetting the test student will clear all history for this student and allow you to view the course as a brand new student.
