PREPARING STUDENTS FOR THE FUTURE

Queen's Business School (QBS) at Queen's University Belfast prides itself on delivering a wide range of undergraduate degree programmes and a university experience that fuels students to shape a better world.

Develop an agile skill set and discover the latest insights from a team of expert lecturers whose focus is helping you to thrive and get set for the next chapter.

PURPOSE-BUILT FOR BUSINESS

Experience a stunning new state-of-the-art Student Hub – an innovative 6,000 square metre expansion that delivers an enhanced social and educational experience. Students have access to a wide range of cutting-edge facilities right across Queen's including one of the best libraries in Europe.

New QBS facilities include:

- 250-seat tiered educational space
- 120-seat lecture theatre
- 150-seat computer lab
- FinTrU Trading Room
- Employability Hub

CAREER-FOCUSSED

Employability is at the centre of the student experience so that students are equipped to forge careers across sectors. Students benefit from industry-focused learning that includes guest lectures and case studies, career networking, and employability skills training. All students at QBS are supported by a dedicated Careers and Work Placement team.

Placements – Most QBS undergraduate courses offer a placement opportunity, providing a real-world experience and a brilliant environment to apply learning. Placements can be undertaken locally or further afield.

Year in Enterprise – Instead of a traditional Placement Year, students can start or continue their entrepreneurial journey by building their own business. Scholarships may be available to help subsidise student participation (subject to funding).

THINKING BEYOND

Study Abroad – Spend a semester or academic year at one of our partner institutions in Europe, North America, East Asia, or Australia. There is also the opportunity to combine a semester of Study Abroad with a shorter work placement.

Real-Money Investment Pot (£70,000) – Join the Queen's Student-Managed Fund to taste the New York and London trading environments at the FinTrU Trading Room.
