OUGH ERNE **Enniskillen:** The Development of the Island Town

Please Join

The Dig Enniskillen Toolkit - Free Online Course

Ever wondered how archaeologists carry out an excavation? Why they dig where they do and what do they record? The Dig Enniskillen Toolkit is for you! You will explore the archaeological process with our crack team of experts from the Centre for Community Archaeology, Queen's University Belfast. You will learn how to record, draw and photograph on an excavation.

We will even guide you through interpreting an archaeological site and get you thinking about how to communicate it. So if you choose to come volunteer on our community excavation in Enniskillen in September you'll know the inside scoop.

For further details about the projects, or how to register as a volunteer, please visit https://www.lelp.org.uk/heritage-volunteer-opportunities-training/ or contact Hazel Long.
