Vasculogenic Properties of Endothelial Colony Forming Cells (ECFCS) in Hypoxia are Regulated by MIR-130
Guduric-fuchs,
J., O'Neill, C., James, B., Chambers, S., Medina, R. & Stitt, A. Jun 2015 In: Journal of Vascular Research. 52, Supplement 1, p. 87-88

Investigating the role of interleukin-33 (IL33) in Muller cells

MicroRNA-199b Modulates Vascular Cell Fate During IPS Cell Differentiation by Targeting the Notch Ligand Jagged1 and Enhancing VEGF Signaling

Role of the receptor for advanced glycation endproducts (RAGE) in retinal vasodegenerative pathology during diabetes in mice.

Animal models of diabetic retinopathy

Epigenetic Changes in Endothelial Progenitors as a Possible Cellular Basis for Glycemic Memory in Diabetic Vascular Complications

Modulatory role of S100B during retinal angiogenesis
Delaney, R., Stitt, A. & Chen, M. 2015

Effect of membrane stiffness and cytoskeletal element density on mechanical stimuli within cells: an analysis of the consequences of ageing in cells.
Xue, F., Lennon, A. B., McKayed, K. K., Campbell, V. A. & Prendergast, P. J. 2015 In : Computer Methods in Biomechanics and Biomedical Engineering. 18, 5, p. 468-476

Investigating Approaches for Three-Dimensional Printing of Hydroxyapatite Scaffolds for Bone Regeneration

Modulation of mutated cohesin complex gene expression in acute myeloid leukaemia cell lines
Smith, J. S., Liberante, F. G., Thompson, A. & Mills, K. I. 19 Apr 2015 In : British Journal of Haematology. 169, Supplement s1, p. 87

MicroRNA-199b Modulates Vascular Cell Fate During IPS Cell Differentiation by Targeting the Notch Ligand Jagged1 and Enhancing VEGF Signaling

Mesenchymal stromal cells for treatment of the acute respiratory distress syndrome: The beginning of the story

Unexpected Role for Adaptive qBTh17 Cells in Acute Respiratory Distress Syndrome

Aspirin therapy in patients with acute respiratory distress syndrome (ARDS) is associated with reduced intensive care unit mortality: a prospective analysis

A Functional Variant of Elafin With Improved Anti-inflammatory Activity for Pulmonary Inflammation

Diagnostic accuracy of pulmonary host inflammatory mediators in the exclusion of ventilator-acquired pneumonia
McAuley, D. F., McMullan, R., O’Kane, C. M. & 27 others Jan 2015 In : Thorax. 70, 1, p. 41-47

A role for whey acidic protein four-disulfide-core 12 (WFD12) in the regulation of the inflammatory response in the lung
Antimicrobial efficacy of tobramycin polymeric nanoparticles for Pseudomonas aeruginosa infections in cystic fibrosis: Formulation, characterisation and functionalisation with dornase alfa (DNase)

A Functional Variant of Elafin With Improved Anti-inflammatory Activity for Pulmonary Inflammation

Type-I interferons induce lung protease responses following respiratory syncytial virus infection via RIG-I-like receptors

Foronyi, R. F., Taggart, C. C., Dabo, A. J., Weldon, S., Cummins, N. & Geraghty, P. Jan 2015 In : Mucosal Immunology. 8, p. 161-175

A Secretory Leukocyte Protease Inhibitor Vaccine With Improved Activity against Lung Infection

Secretory Leukocyte Protease Inhibitor Decreases Apoptosis in Monocytes via a Mechanism independent of its Protease Inhibition Activity

McGarry, N., Greene, C. M., McElvaney, N. G., Weldon, S. & Taggart, C. C. 2015 In : Journal of Immunology Research.2015,

The Role of Serine Proteases and Antiproteases in the Cystic Fibrosis Lung

Twigg, M. S., Brockbank, S., Lowry, P., FitzGerald, S. P., Taggart, C. & Weldon, S. 2015 In : Mediators of Inflammation. 2015,293053., 293053

Unexpected Role for Adaptive γδT17 Cells in Acute Respiratory Distress Syndrome

A role for whey acidic protein four-disulfide-core 12 (WFDC12) in the regulation of the inflammatory response in the lung

Rapid detection of health-care-associated bloodstream infection in critical care using multipathogen real-time polymerase chain reaction technology: a diagnostic accuracy study and systematic review

Aspirin therapy in patients with acute respiratory distress syndrome (ARDS) is associated with reduced intensive care unit mortality: a prospective analysis

Automated versus non-automated weaning for reducing the duration of mechanical ventilation for critically ill adults and children: a cochrane systematic review and meta-analysis

A Functional Variant of Elafin With Improved Anti-inflammatory Activity for Pulmonary Inflammation

Diagnostic accuracy of pulmonary host inflammatory mediators in the exclusion of ventilator-acquired pneumonia

McAuley, D. F., McMullan, R., O’Kane, C. M. & 27 others Jan 2015 In : Thorax. 70, 1, p. 41-47

Evaluating early administration of the hydroxymethylglutaryl-CoA reductase inhibitor simvastatin in the prevention and treatment of delirium in critically ill ventilated patients [MoDUS trial]: study protocol for a randomized controlled trial

Casarini, A., McAuley, D. F., Alce, T. M., Zhao, X., Ely, E. W., Jackson, J. C., McDowell, C., Agus, A., Murphy, L. & Page, V. J. 2015 In : Trials. 16, 218,

Mesenchymal stromal cells for treatment of the acute respiratory distress syndrome: The beginning of the story

Exendin-4 Attenuates Experimental Diabetic Cardiomyopathy via Direct Actions on Inflammation

Tate, M., Robinson, E., McDermott, B. J. & Grieve, D. J. May 2015

Exendin-4 protects against post-myocardial infarction remodelling via specific actions on inflammation and the extracellular matrix
Robinson, E., Cassidy, R. S., Tate, M., Zhao, Y., Lockhart, S., Calderwood, D., Church, R., McGahon, M. K., Brazil, D. P., McDermott, B. J., Green, B. D. & Grieve, D. J. 01 Mar 2015 In : Basic Research in Cardiology. 110, 2.

**Chronic PEGylated obestatin treatment prevents the onset of high fat diet induced hypertension and endothelial dysfunction in the absence of metabolic actions**

**Chronic treatment with a stable obestatin analogue curbs insulin desensitisation in high fat fed mice**

Cowan, E., Burch, K., Greer, B., McClune, D., Scantlebury, D., Grieve, D. & Green, B. Mar 2015

**Selective targeting of glucagon-like peptide-1 signalling as a novel therapeutic approach for cardiovascular disease in diabetes**

Tate, M., Chong, A., Robinson, E., Green, B. D. & Grieve, D. J. Feb 2015 In : British Journal of Pharmacology. 172, 3, p. 721-736
