# COME AND MEET SOME OF OUR RESEARCH PIONEERS

This exciting FREE showcase event is an excellent opportunity for you to meet and talk with many of the inspiring researchers at Queen's University.

The sixth volume in *The DNA of Innovation* series entitled *Pioneering Research, Global Impact* will be launched at the showcase, and profiles 29 of our inspiring researchers and their work within the four new Global Research Institutes and six Pioneer Research Programmes at Queen's.

They demonstrate how Queen's is bringing together researchers across disciplines to address some of the greatest societal challenges of our time.

Our researchers will host exhibition stands at the showcase, and copies of the new publication will be available (free) at the event. A few short presentations will also be given from the stage.

**This is a FREE drop in event. All are welcome.**

## Programme 4.00pm–7.00pm

4.00pm–5.00pm	Exhibition, and speaking opportunity with Queen's researchers
