

# **VOLUNTEERS NEEDED FOR A RESEARCH STUDY ASSESSING LUNG FUNCTION**

**We aim to find out the lung function of healthy adults to help us with our research into a respiratory disease.**

**Participants must**

- **Be aged 18-80 years;**
- **Not have a respiratory condition (for example; asthma);**
- **Not taking any respiratory medication (for example; inhalers) or antibiotics.**

**Participants will:**

- **Attend the Northern Ireland Clinical Research Facility, located in Belfast City Hospital, University Floor. The visit will last about 1 hour 30 minutes.**
- **Complete 2 lung function tests.**

**This study involves simple assessments only and does not involve taking any treatments.**

**All participants in the first year of the study will be entered into a draw to win an iPad**

**If you are interested, please telephone or email the researcher below.**
