

QUEEN'S UNIVERSITY BELFAST

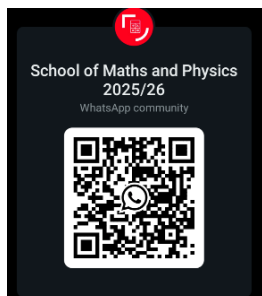

SCHOOL OF MATHEMATICS AND PHYSICS

October 2025 Student Newsletter

To all new and returning students, **WELCOME!** We hope that you have had a smooth start to the new academic year. This newsletter aims to keep you posted on recent news and upcoming events. Please feel free to contact mp.ss@qub.ac.uk if you would like something to be included in our next issue.

NEWS

Meet our new **School Representative: Lucy O'Rawe**, Level 3 MSci Mathematics. The School Representative leads the student voice, which is vital for implementing your suggestions and feedback. Lucy has set up a WhatsApp Community for all Maths and Physics Undergraduates. You can access this using the QR code below.

Our previous School Representative, Oliver Boyce, secured Queen's Annual Funding to improve the MAPTC social area with student-selected artwork and decor.

Other recent upgrades have included the addition of a hydration station and table tennis. During the previous academic year, an openly available UG study space and a QOL-bookable Quiet Room were introduced. These enhancements demonstrate that **your voice matters!**

Meet your Campus **IOP Ambassador: Emily Moran**, Level 3 MSci Physics. "My role is to promote Physics engagement, Physics outreach and let you know about the resources that are available to you, to help make the most out of your time at University. Don't hesitate to ask me about the IOP!"

"I love that the IOP offers lots of opportunities to network and build your knowledge by attending conferences and events. I attended PLANCKS in 2025 and it was one of the most memorable parts of my university experience so far!"
