

Adelaide Marzano

Engineer/Lecturer

Adelaide Marzano

PhD, Mechanical Systems, University of Naples Federico II, 2008

MEng (Hons), Mechanical Systems, University of Naples Federico II, 2004

Adelaide gained her MEng(Hons) in Business Engineering from the University of Naples Federico II in 2004. In 2008 she obtained a PhD in Mechanical Systems Engineering from the same University. As a researcher in virtual modelling and simulation she developed methodologies and software tools for systems and assembly line simulation in a Virtual Environment in collaboration with important industrial companies in the transportation field (e.g. Alenia Aeronautica, Fiat Group, Firema trasporti, Rolls Royce).

“Sometimes dreams come true! This important task falls upon you, with your devotion, persistence and passion”.
