

# Science and Medicine in the Insular Middle Ages

Queen's University Belfast  
7th December 2018

Cotton MS  
Cleopatra C XI,  
f.72v

Friday 7th December 2018  
10am-6.30pm

Harty Room

This one-day symposium focuses on the reception, transmission and translation of scientific and medical knowledge in the Insular Middle Ages.

The papers presented overview a variety of subjects: Old and Middle English, Old and Middle Irish, Latin, Old Norse, Medieval Welsh, as well as archaeology, manuscript studies, historical linguistics, and history of science.

This symposium offers a platform of discussion for scholars interested in the reception and transmission of scientific and medical knowledge over several centuries and across borders in England, Ireland, Wales, and Scandinavia.
