

MSc Cystic Fibrosis Scholarship (Experimental Medicine)

Application criteria : 2018/19

Introduction

This scholarship is open to students wishing to undertake the MSc in Experimental Medicine, specifically in the area of Cystic Fibrosis (CF) research. CF is a life limiting multi-organ genetic illness. This scholarship presents an exciting new opportunity to enter a prestigious new MSc programme in Queen's University Belfast.

The successful student will undertake a 38 week Cystic Fibrosis research project in the Centre for Experimental Medicine. This research project will be supervised by Dr Damian Downey.

Application criteria

1. Applicants should submit the following documentation to support their application by the closing date: **31 May, 2018 at 12 noon** to pgoffice.smdb@qub.ac.uk
 - i) 500 words declaring your interest in, and understanding of, research in Cystic Fibrosis,
 - ii) Curriculum Vitae, with a particular focus on your research experience
2. Applications received after this date/time will not be considered
3. Applications will be reviewed by a specially convened Committee
4. Short-listed applicants will be called for interview
5. Decisions will be made based on:
 - the quality of the candidate
 - their progress to date
 - suitability for the programme
 - their performance at interview
6. The decision of the Committee in relation to the successful candidate will be final.
7. Please direct any queries regarding the MSc in Experimental Medicine to the Programme Co-ordinator, Dr Ultan Power (u.power@qub.ac.uk). For specific queries on the CF research project please contact, Dr Damian Downey (d.downey@qub.ac.uk)
