

40th Biennial Conference of the International Society for the Study of Individual Differences

ISSID Conference

Belfast 2023

Queen's University Belfast, Northern
Ireland

17-21 July 2023

Programme

Dear Conference Delegates,

Welcome to Belfast and to the 2023 Conference of the International Society for the Study of Individual Differences!

Thanks to all of you who have travelled to be here. After a four-year break, it's wonderful to see our community gather together once again. We're delighted to be hosting the conference here at Queen's University, Belfast to mark the 40th anniversary of ISSID together.

As we look ahead to the future of our discipline and discuss the latest ideas, methods and research this week; no doubt we'll also take time to reminisce about the last four decades.

We have an exciting programme of events lined up and our sincere thanks go to all of our speakers, poster presenters and workshop facilitators who have made this conference possible.

Each session will begin promptly at the time stated in the programme. Here's a rundown of everything you need to know to help the week run smoothly:

Registration desk: Will open at 12noon on Monday 17 July in the Whitla Hall and will be staffed throughout the conference as an information point. Drop in at your convenience to register and collect your conference pack.

Opening reception: Will be held from 18.00 – 21.00 on Monday 17 July in the Whitla Hall. This will include a wine reception and a display of traditional Irish music and dancing.

Keynotes: Monday's Keynote will take place in the Whitla Hall, all other Keynotes (Tuesday-Friday) will take place in the Larmor Lecture Theatre (just to the left of the Whitla Hall).

Coffee breaks, lunches & poster sessions: Will be held in the Whitla Hall. This space will be free for delegates to use throughout the conference.

Oral presentations and symposia: Will take place in the Larmor Lecture Theatre and in two other buildings - the 'Peter Froggatt Centre' and the 'School of Maths and Physics Teaching Centre', both of which can be accessed from the main quad of the Lanyon Building. These locations are all within a five-minute walk from the Whitla Hall - see map included in this programme.

Gala dinner: For those of you who have booked to attend the conference gala dinner, it will take place between 19.30 - 22.30 on Thursday 20 July in the spectacular Great Hall of the main Lanyon Building at Queen's University.

Presenters: We have a very full schedule and we'd therefore ask you to be in the room at least five minutes before your session starts in order to upload your slides.

Poster presenters: You can put your poster up between 15.30 – 16.00 on the day of your poster session. Please take note of the poster board number allocated to you as stated in this programme.

- **Tuesday 18 July session:** Presenters please be at the Whitla Hall to discuss your research from 17.45.
- **Wednesday 19 July session:** Presenters please be at the Whitla Hall to discuss your research from 17.00.

Elsevier 'Meet the Editors' event: This event is sponsored by Elsevier and is an opportunity for students and early career researchers to meet and network with some of the Editors of the Journal of Personality and Individual Differences and gain a deeper understanding of the publication process. This is open to all delegates and will run in parallel with the first poster session and wine reception on Tuesday 18 July in the Whitla Hall.

Queries or assistance: Our conference support staff (wearing white conference tee-shirts) at the registration desk in the Whitla Hall will be happy to help at any point during the conference or you can speak to one of the conference organisers Dr Kostas Papageorgiou and Dr Paul Wilson.

If you'd like to explore Belfast and wider area, you'll find everything you need to plan your trip at www.visitbelfast.com.

Last but not least, we'd like to extend a sincere thank-you to our sponsors whose support has made this conference possible – Visit Belfast, Tourism Northern Ireland, Elsevier, and the School of Psychology here at Queen's.

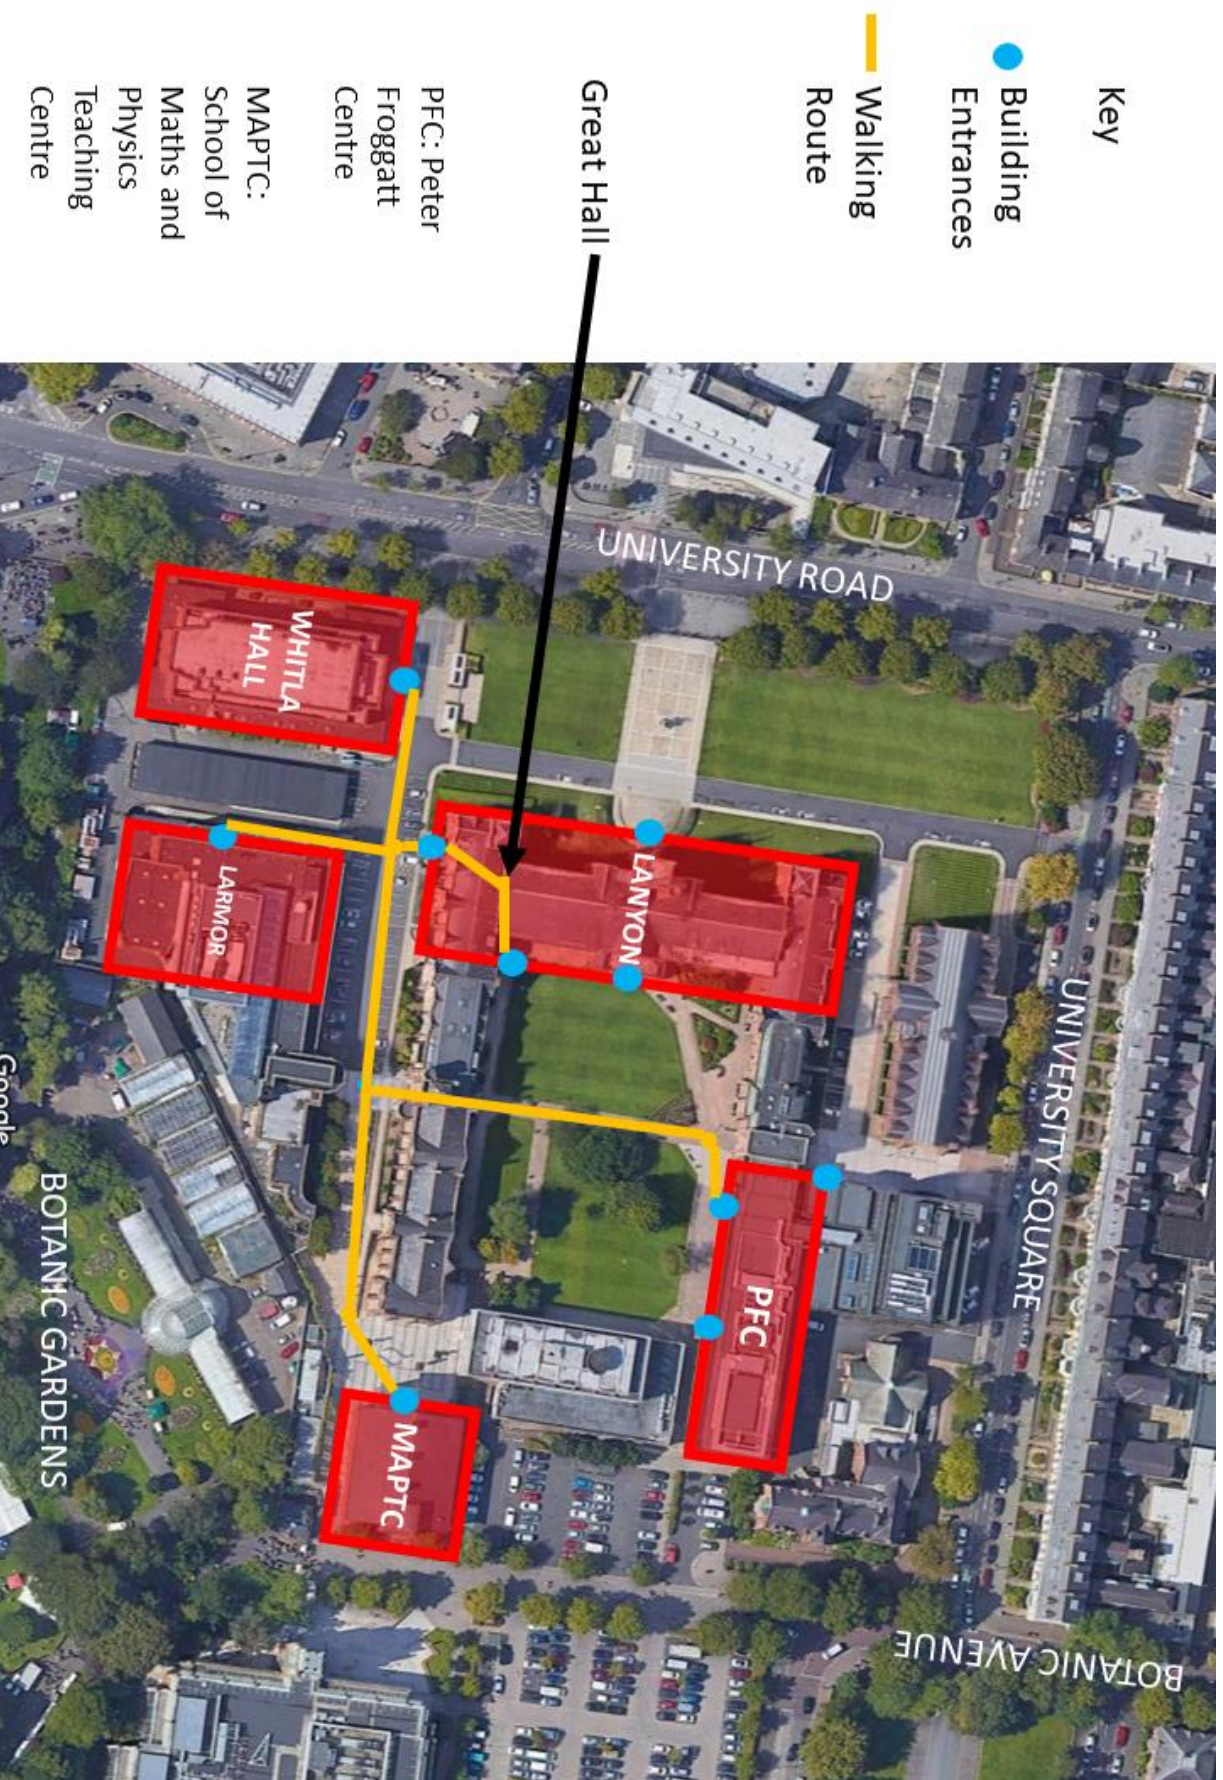

We hope you have an inspiring week and take time to enjoy everything our city has to offer!

Dr Paul Wilson and Dr Kostas A. Papageorgiou
