## APPENDIX 1: CONTEXT REGISTERS

### Area C

| Context No. | Type  | Trench | Brief description |
|-------------|-------|--------|-------------------|
| 100         | Layer | 1      | Sod               |
| 101         | Layer | 1      | Topsoil           |
| 102         | Layer | 1      | Slate layer       |
| 103         | Layer | 1      | Cobbles           |

| Context No. | Type  | Trench | Brief description |
|-------------|-------|--------|-------------------|
| 200         | Layer | 2      | Sod               |
| 201         | Layer | 2      | Topsoil           |
| 202         | Layer | 2      | Slate Layer       |
| 203         | Layer | 2      | Cobbles           |

| Context No. | Type  | Trench | Brief description |
|-------------|-------|--------|-------------------|
| 400         | Layer | 4      | Sod               |
| 401         | Layer | 4      | Topsoil           |
| 402         | Layer | 4      | Cobbled surface   |

### Area D

| Context No. | Type  | Trench | Brief description    |
|-------------|-------|--------|----------------------|
| 500         | Layer | 5      | Sod                  |
| 501         | Layer | 5      | Cobbles              |
| 502         | Layer | 5      | Dark, disturbed soil |

| Context No. | Type    | Trench | Brief description   |
|-------------|---------|--------|---------------------|
| 2900        | Layer   | 29     | Sod/topsoil         |
| 2901        | Layer   | 29     | Redeposited topsoil |
| 2902        | Layer   | 29     | Buried topsoil      |
| 2903        | Natural | 29     | Bedrock             |

## Area E

| Context No. | Type    | Trench | Brief description  |
|-------------|---------|--------|--|
| 2600        | Layer   | 26A,B  | Sod  |
| 2601        | Layer   | 26A,B  | Topsoil  |
| 2602        | Layer   | 26A    | Stone layer at south of trench                                     |
| 2603        | Layer   | 26B    | Angular stones/rubble material                                     |
| 2604        | Layer   | 26A    | Burnt deposit, north of trench                                     |
| 2605        | Layer   | 26A    | Silty soil running under C.2604                                    |
| 2606        | Layer   | 26A    | Bedrock  |
| 2607        | Layer   | 26A    | Burnt deposit under C.2604, north of trench                        |
| 2608        | Wall    | 26B    | Wall in north-west of trench                                       |
| 2609        | Wall    | 26B    | Wall in east of trench   |
| 2610        | Layer   | 26B    | Dark brown silty loam with ash and charcoal flecks                 |
| 2611        | Layer   | 26B    | Metalled/stony deposit in south-west interior corner               |
| 2612        | Layer   | 26B    | Angular stones/rubble material                                     |
| 2613        | Layer   | 26B    | Brown loam with orange, and large charcoal and ash flecks          |
| 2614        | Layer   | 26B    | Sub-angular/rounded stones running west-east in trench (Threshold) |
| 2615        | Layer   | 26B    | Possible occupation layer with patch of burning                    |
| 2616        | Layer   | 26B    | Possible beaten clay floor in threshold of building                |
| 2617        | Layer   | 26B    | Possible hearth in C.2615  |
| 2618        | Layer   | 26B    | Possible natural subsoil in west of trench                         |
| 2619        | Masonry | 26B    | Foundation stones for 2608   |

## Area G

| Context No. | Type    | Trench | Brief description   |
|-------------|---------|--------|---|
| 700         | Layer   | 7      | Sod   |
| 701         | Layer   | 7      | Topsoil   |
| 702         | Deposit | 7      | Deposit of stones, possible wall collapse                                     |
| 703         | Wall    | 7      | Deposit of stones, possible wall  |
| 704         | Layer   | 7      | Grey-brown gritty loam  |
| 705         | Layer   | 7      | Orangey-brown clay, possible bank natural                                     |
| 706         | Layer   | 7      | Orangey-brown clay, possible redeposit for terrace                            |
| 707         | Layer   | 7      | Grey-brown clay loam, buried soil horizon onto which wall has been built      |
| 708         | Cut     | 7      | Foundation cut for wall (703) through 706 and 707                             |
| 709         | Layer   | 7      | Deposit of small stones on surface of 707, possibly from construction of wall |
| 710         | Fill    | 7      | Grey-brown clay loam used to fill cut between wall and 706                    |
| 711         | Layer   | 7      | Orange-brown mottled clay, used for terrace                                   |
| 712         | Fill    | 7      | Fill of gully 713, cut into subsoil, close to wall                            |
| 713         | Cut     | 7      | Gully cut into subsoil, close to wall   |
| 714         | Fill    | 7      | Fill of gully 715   |
| 715         | Cut     | 7      | Gully cut into subsoil in north of trench                                     |
| 716         | Layer   | 7      | Subsoil   |
| 717         | Fill    | 7      | Fill of 718   |
| 718         | Cut     | 7      | Cut into subsoil, north end of trench   |
| 719         | Layer   | 7      | Deposit of stones sitting in subsoil in north of trench                       |

| Context No. | Type    | Trench | Brief description   |
|-------------|---------|--------|---|
| 800         | Layer   | 8      | Sod   |
| 801         | Layer   | 8      | Topsoil   |
| 802         | Deposit | 8      | Deposit of large stones covering trench, some cut natural |
| 803         | Layer   | 8      | Grey-brown gritty loam surrounding 802                    |
| 804         | Layer   | 8      | Mid-brown clay that 802 sits on                           |
| 805         | Layer   | 8      | Orange-brown clay   |
| 806         | Layer   | 8      | Subsoil   |

| Context No. | Type    | Trench | Brief description  |
|-------------|---------|--------|--|
| 900         | Layer   | 9b     | Sod  |
| 901         | Layer   | 9b     | Topsoil  |
| 902         | Layer   | 9b     | Small deposit that has accumulated between 906 and 907 on top of 909           |
| 903         | Wall    | 9b     | Wall in south of trench  |
| 904         | Layer   | 9b     | Orange-brown stony clay, terrace deposit                                       |
| 905         | Wall    | 9b     | Mortar-rich wall in north of trench  |
| 906         | Layer   | 9b     | Stone collapse sitting on 902, most likely from 903                            |
| 907         | Layer   | 9b     | Mortar-rich collapse in north of trench, likely from 905                       |
| 908         | Layer   | 9b     | Grey-brown mortar flecked loam onto which 905 has collapsed in north of trench |
| 909         | Layer   | 9b     | Possible path  |
| 910         | Deposit | 9b     | Deposit on which path sits, between walls                                      |
| 911         | Layer   | 9b     | Mid-dark brown terrace material under 904                                      |
| 912         | Layer   | 9b     | Stone chippings/working surface for construction of 903                        |
| 913         | Deposit | 9b     | Charcoal deposit beneath 908 in north of trench, mottled with 919              |
| 914         | Fill    | 9b     | Grey clay, fill of foundation cut for wall 905                                 |
| 915         | Cut     | 9b     | Cut for wall 905   |
| 916         | Layer   | 9b     | Orange gritty clay south of 905  |
| 917         | Layer   | 9b     | Charcoal deposit associated with 916, south of 905                             |
| 918         | Layer   | 9b     | Old topsoil that terraces are built on   |
| 919         | Layer   | 9b     | Orange gritty clay, mottled with 913, north of 905                             |
| 920         | Layer   | 9b     | Old ground topsoil between walls 905 and 903                                   |
| 921         | Layer   | 9b     | Accumulation of charcoal-flecked soil above charcoal deposit 917               |
| 922         | Layer   | 9b     | Small spread of mortar on top of 921, from construction of wall 905            |
| 923         | Layer   | 9b     | Hill-wash deposit covering 913 and 919 north of wall, same as 921              |
| 924         | Layer   | 9a     | Sod  |
| 925         | Layer   | 9a     | Topsoil  |
| 926         | Layer   | 9a     | Large rubble and mortar collapse   |
| 927         | Layer   | 9a     | Loamy soil with brick, shell and pebble flecking, under 926, east of wall      |
| 928         | Masonry | 9a     | Wall   |
| 929         | Layer   | 9a     | Stony, mortar collapse layer, west of wall                                     |
| 930         | Layer   | 9a     | Mortar/render layer  |
| 931         | Layer   | 9a     | Topsoil layer with stony flecking, at west of trench                           |
| 932         | Layer   | 9a     | Linear arrangement of large causeway stones                                    |
| 933         | Layer   | 9a     | Soil, loamy layer under pathway, east of wall                                  |
| 934         | Layer   | 9a     | Working surface east of wall   |
| 935         | Layer   | 9a     | Loamy clay under 934   |
| 936         | Surface | 9a     | Crushed brick path   |
| 937         | Fill    | 9a     | Dark-brown charcoal-flecked clay-loam, west of 932                             |
| 938         | Fill    | 9a     | Dark-brown clay-loam, north of trench, west of 932                             |

|     |       |    |   |
|-----|-------|----|---|
| 939 | Fill  | 9a | Very dark charcoal-flecked loamy clay, south of trench, west of 932 |
| 940 | Cut   | 9a | Cut for wall, west of wall  |
| 941 | Fill  | 9a | Dark brown clay, fill of cut 940                                    |
| 942 | Cut   | 9a | Cut of 937 at base of feature 932                                   |
| 943 | Cut   | 9a | Dark brown, loamy fill of 939                                       |
| 944 | Cut   | 9a | Dark brown, loamy clay, fill of 938                                 |
| 945 | Layer | 9a | Original topsoil above natural                                      |
| 946 | Cut   | 9a | Cut for wall, east of wall  |
| 947 | Fill  | 9a | Dark brown clay, fill of cut 946,                                   |
| 948 | Fill  | 9a | Fill of drain 932   |
| 948 | layer | 9b | Silty clay under burning 917  |

## APPENDIX 2: HARRIS MATRICES

Individual Harris Matrices for each trench are listed below. The Phases have been colour coded as follows:

- Phase 1 represents the pre-17<sup>th</sup> century activity on the site.
- Phase 2 represents the 17<sup>th</sup> century occupation and incorporates the construction of the town which began in 1608, the renovations to the mainland castle buildings and the construction of the garden which has been dated to the 1630s (Breen 2012, 110).
- Phase 3 represents the abandonment of the site, dating from the end of the 17<sup>th</sup> century through to the present day
- Any unphased activity is in black
