For most of you, this is the first time you have left home and while this can be a lot of fun, it can be daunting to have to cook and prepare meals for this first time. It can, however, actually be really rewarding to create tasty food on a budget and there are also a lot of benefits too.

- It is much cheaper than eating out or ordering a take away.
- It is a lot more nutritious to cook your own food.
- You will notice increased energy and stamina as well as improved sleep and concentration.
- It can have positive impact on your mood and wellbeing.
- Helps you to maintain a healthy body weight.
- It will also keep mum happy!
