

## Let us tell you about the opportunities we provide in the School

### Come and say hello!

Book an introduction meeting with us to get to know more about your new School and our university services.

### Do you have a question? Just ask!

Our team are here to help you find the information that you need to settle into your new programme and home.

### Chat Club

Sometimes we want someone to chat to, or we want to practise our speaking skills informally.

### New to Northern Ireland?

Get out and about Northern Ireland with our experienced guides.

### Language Support

We have in-school support to help you with academic writing. There is also support from INTO.

### Take part in our School Social Events and Cultural Activities

We are busy putting together a range of social and cultural events for the first term and throughout the year

### Together greener! Want to be part of our Green Team?

Help promote a green and sustainable environment in the School. We've hosted events with staff and students - bringing in homemade bread, vegetables from their gardens as well as donating well-loved books. It is a great way to meet staff and students.

### Volunteer! It is good for you!

Volunteering helps you meet new friends, have fun, boost your CV and get a well-earned break from your university work. Whatever you're passionate about, there's a volunteering opportunity for you.

### Meet our International Student Ambassadors

We are delighted to have international student ambassadors on different programmes throughout the School. Connect with our student ambassadors.
