- 1.4 Amendments to the Relationship Agreement shall require the consent of both parties.
- 1.5 The Relationship Agreement shall require the approval of the Students' Union Council.

2. STATEMENT OF PRINCIPLES

- 2.1 The following Protocol details the financial arrangements between the Students' Union and the University. It is written in the context of the University's responsibility and accountability to government and it establishes the roles, responsibilities and obligations of the University and the Students' Union. It assumes that all budget allocations by the University to the Students' Union are made for the purpose of enabling the Students' Union to carry out its aims and objectives.
- 2.2 This Financial Protocol is written in the spirit of cooperation and partnership and seeks to ensure that the identity and ethos of the Students' Union is maintained and that policies and arrangements are student-friendly and enhance the student experience.
- 2.3 This Financial Protocol is based on the premise that the financial arrangements will involve the University and the Students' Union working as a partnership within the managerial context agreed with the University.
- 2.4 This Protocol identifies the financial arrangements for the Students' Union as comprising two main elements:

- 2.4.1 the provision of a budget allocation by the University to cover non-discretionary expenditure;
 - 2.4.2 agreement on income generation.
- 2.5 The University owns the Students' Union building and, therefore, all commercial leases to tenants in the Students' Union building will continue to be provided by the University.
- 2.6 From the date of approval by Senate of this Protocol, revised VAT arrangements, agreed with Customs and Excise to include all Students' Union activities in the main University VAT return as a separate unit (or 'tunnel' in VAT terminology), will come into effect. This reflects the legal position in that the Students' Union is not a separate legal entity but operates as a unit within the University. It also recognises that the bars and entertainments operate under the University's Higher Education Licence.
- 2.7 For the purposes of transparency, accountability and enhanced management information, all financial transactions for the Students' Union (including the bars and entertainments) will be required to adhere to the University's Financial Regulations, as outlined in the Financial Regulations and Procedures Manual. All transactions will be recorded through the University's financial information system (QFIS). This will ensure best practice and that an acceptable level of internal control is maintained.

3. STRUCTURE AND MANAGEMENT

- 3.1 The Management Board will ensure robust financial management by monitoring financial performance, agreeing financial delegation and approving budgets, ensuring that the requisite financial estimates are provided to the University, in line with the reporting schedule for the Planning and Finance Committee.
- 3.2 The Board will meet at least five times in every calendar year. The Board will have a dual reporting structure, reporting as required to Senate via the University Operating Board and the Planning and Finance Committee, and also reporting to the Students' Union Council.

4. REPORTING ARRANGEMENTS

- 4.1 The Students' Union will sit separately from University structures but will be aligned to Professional Services under the Registrar and Chief Operating Officer.
- 4.2 The Students' Union will report operational and normal business matters to the Registrar and Chief Operating Officer – through a nominee of the Registrar within the Professional Services Structure.
- 4.3 The Students' Union shall report to the Registrar and Chief Operating Officer in line with the normal University reporting cycle, providing three progress reports on an annual basis on dates to be mutually agreed.

5. FINANCIAL ARRANGEMENTS

- 5.1 Development Plan and Business Plan

The Students' Union will develop a multi-year Strategic Plan, which will be submitted to the Management Board and Council for approval.

The Strategic Plan will be supported by Annual Delivery Plans approved annually by the Management Board. The Annual Delivery Plans will be shared with University senior management and with Senate.

5.2 Budget Allocation

The University will provide the Students' Union with a block grant, which should, as far as is reasonably possible, support the delivery of the Strategic Plan. The block grant shall be agreed as part of the University's resource allocation process.

The block grant shall, under normal circumstances, cover a multi-year period, but shall be subject to amendments if the University's financial position necessitates a review of budgets across all areas of the University.

The Students' Union shall have, subject to the University's policies and procedures, overall responsibility and control for determining the allocation and spend of the block grant.

The Students' Union may retain surpluses by way of Students' Union reserves, the disbursement of which shall be the responsibility of the Management Board. If all areas of the University are required to make in-year cost savings, any such savings may not be retained as reserves.

The Students' Union may submit proposals to the University for additional funds when such opportunities arise.

5.3 Monitoring and Control

Annual financial forecasts and budgets will be approved and monitored by the Management Board who will ensure that the requisite financial estimates are provided to the University, in line with the reporting schedule for the Planning and Finance Committee.

Students' Union finances will be accessed via a separate University cost centre, set up with controls and approval mechanisms which will provide the SU with autonomy over their finances and be used to manage all financial transactions of the Union, subject to the University's policies and procedures.

The Director of the Students' Union will have access to, and use of, a qualified Management Accountant (nominated by the Director of Finance), to provide Management Accounting Services to the Union including support with budgeting and preparation of management accounts, as well as the use of approved University financial systems.

Students' Union budgets and financial plans will also be shared with the University in line with normal reporting requirements and a year-end financial statement will be submitted to the Director of Finance on an annual basis.

The Students' Union will be subject to reviews by both Internal and External Audit, agreed by the Director of Finance.

5.4 Income Generation

The remainder of the annual business plan will be financed from income generated by the Students' Union. The Students' Union's development plans will be based on services provided directly by the Students' Union and will take cognisance of the development plans of other student services, for example, Careers, Counselling, Childcare and Disability.

Targets will be set for all commercial activities, including bars and entertainments, and the financing costs of refurbishments planned for the Students' Union building and any future redevelopments will be a first charge against this net income.

5.5 Allocation of Costs

All direct, indirect and overhead costs incurred by the University on behalf of the Students' Union will be charged against either the budget allocation provided or the income generated, as agreed within service agreements. A policy of full costs recharging will provide a greater level of transparency in understanding and accounting for the true costs of the Students' Union. Due account will be taken of those services currently provided by central support departments and this level of provision should continue.
