

# Welcome to the Easter edition of the SANDWICH NEWSLETTER

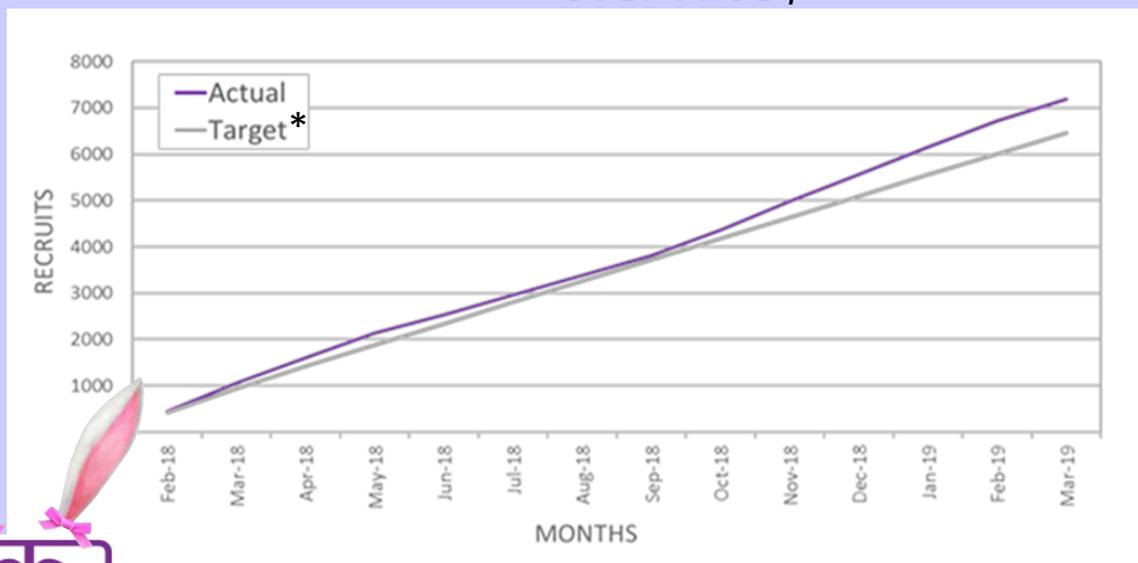

SANDWICH Trial Newsletter v1.0 Final 16/04/2019

Edition 5 April 2019

## Recruitment is *Eggs-actly* on Target

Thanks to all of *your hard work* we have now recruited **over 7200** patients

Keep up the -cellent work over the coming months!

\* Target based on protocol v5.0

### Intervention Compliance

Please review your feedback and draw up an action plan with your team for possible areas of improvement

### Data Management

- Retrospective data entry should be completed by *30/06/2019*
- Check *and* answer your DCRs regularly -it's good practice to address these *before* entering any new data

We'd love to hear from you with any comments, suggestions or queries

# SANDWICH Protocol Update

- SANDWICH Protocol version 5.0 will be implemented soon
  - Please complete and return your Investigator Protocol Agreements
- The main changes in v5.0 relate to statistics e.g. data censoring points, and recalculation of the sample size using a more recent PICANet dataset
  - This *does not* alter your screening and recruitment target
  - Screen *all* children who receive IMV

Another PICANet  
download is  
scheduled for  
June 2019

## Study Milestones

- **ALL SITES** have now been randomised!
- Only **3 SITES** are waiting to enter their training!
- There is only approx. **6 months** of data collection remaining
  - Screen and recruit your last patients on 14<sup>th</sup> October 2019!
- The **Trial Steering Committee** and **Data Monitoring Committee** have both met and are very pleased with the progress of SANDWICH!
