

UK PAEDIATRIC DELIRIUM GROUP

We are delighted you are all working so hard to identify Delirium in your PICU !

Delirium training resources! We have done the hard work for you and developed everything you should need to learn about identifying paediatric delirium. Scan this QR code to take you to our website.

www.qub.ac.uk/sites/uk-paediatric-delirium-group

Before you start any training try to assess the delirium knowledge that people in your unit already have by asking people to take a short quiz. This will allow you to focus on the gaps in knowledge within your unit.

Pre-Training Knowledge Test

Scan this QR code, take our 1- minute quiz to test the knowledge you already have on delirium before you start your training.

Post-Training Knowledge Test

Following your training (wait 2 weeks) scan this QR code and take our quick quiz. Let's see how much Knowledge you retained! A pass will generate a certificate that can be used for revalidation portfolios.

We'd love to share how you train in your unit. Please email us at ukpdgroup@qub.ac.uk with any photos and information you would like shared on the paediatric delirium website newsfeed.
