

Mediasite Services @ Queen's

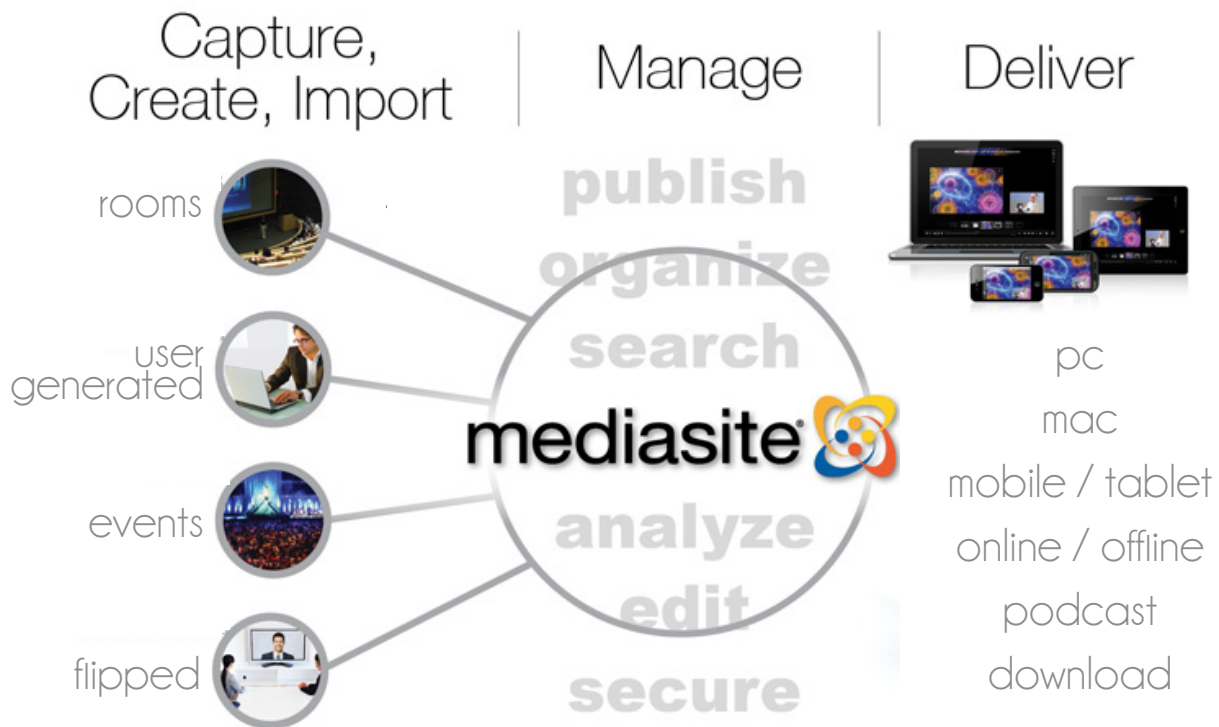

Mediasite is a new central service being offered by Media Services at QUB. A fresh approach to online video & presentations, this is so much more than lecture capture. It empowers staff to plan, create and manage their own content for themselves, by themselves. There are several key components:

My Mediasite

- Your own video homepage
- Manage your own content
- Share links and embed codes
- Control viewing permissions
- Edit your content/presentations
- Upload your existing content
- Collaborate & share resources

Desktop Recorder

- Create your own content
- Choose your content layout
- Simple to use
- No special equipment required
- Use off-campus or off-line
- Integrates with My Mediasite
- Full support available

Full training available
 Range of detailed analytics
 Supports transcription & subtitling **
 Advice on equipment & aquisition of content

H.264 or Silverlight delivery
 Adaptive bit rate streaming
 Fully redundant server architecture
 Centrally supported by Information Services
